

# PLASTIC MEASURING CYLINDER

Code : W032

- A plastic measuring cylinder in engineering testing laboratories is used for accurately measuring the volume of liquids. It is lightweight and durable, making it suitable for handling a variety of chemicals or materials, especially when glass containers might be too fragile or heavy. It provides precise measurements for experiments and sample preparation.

## ORDERING INFORMATION

| Item                                | Code      |
|-------------------------------------|-----------|
| PLASTIC MEASURING CYLINDER - 10 ml  | W032P010H |
| PLASTIC MEASURING CYLINDER - 25 ml  | W032P025H |
| PLASTIC MEASURING CYLINDER - 50 ml  | W032P050H |
| PLASTIC MEASURING CYLINDER - 100 ml | W032P100H |

---

|                                     |           |
|-------------------------------------|-----------|
| PLASTIC MEASURING CYLINDER - 250 ml | W032P250H |
|-------------------------------------|-----------|

|                                     |           |
|-------------------------------------|-----------|
| PLASTIC MEASURING CYLINDER - 500 ml | W032P500H |
|-------------------------------------|-----------|

|                                      |           |
|--------------------------------------|-----------|
| PLASTIC MEASURING CYLINDER - 1000 ml | W032P01KH |
|--------------------------------------|-----------|

|                                      |           |
|--------------------------------------|-----------|
| PLASTIC MEASURING CYLINDER - 2000 ml | W032P02KH |
|--------------------------------------|-----------|
