CONCRETE > SELF-CONSOLIDATING CONCRETE

U-SHAPE BOX APPARATUS (SCC)

Code : B029

- The U-Shaped Box apparatus, specified by EN 11044 standards, is employed to evaluate the flow properties and passing ability of self-compacting concrete (SCC).
- This test assesses how well SCC can flow and fill formwork without segregation, ensuring uniform distribution of aggregates and paste.

STANDARDS

EN 11044 • RILEM REPORT N. 23

TECHNICAL SPECIFICATIONS

- Made of stainless steel
- Guillotine form gate
