MOISTURE TIN

Code : G720

- Moisture tins in engineering testing laboratories are used to hold soil or material samples during oven drying for moisture content determination. They are durable, heat-resistant, and help ensure accurate weight measurements before and after drying.

ORDERING INFORMATION

Item Name	Item Code
MOISTURE TIN with LID (Small, Ø 55 x 35 mm)	G720X001H
MOISTURE TIN with LID (Medium, Ø 70 x 45 mm)	G720X002H
MOISTURE TIN with LID (Large, Ø 80 x 80 mm)	G720X003H
MOISTURE TIN (Ø 200 x 50 mm)	G720X011H
MOISTURE TIN (Ø 75 x 30 mm)	G720X012H
