BURETTE

Code : W016

- A burette in engineering testing laboratories is used for precisely dispensing and measuring the volume of liquids, typically in titration experiments. It allows for accurate control of the liquid flow, making it essential for chemical analyses, such as determining the concentration of solutions.

ORDERING INFORMATION

Item Name	Item Code
BURETTE - 10 ml	W016G010H
BURETTE - 25 ml	W016G025H
BURETTE - 50 ml	W016G050H
BURETTE - 100 ml	W016G100H
